Saurav Kumar

Web developer, currently pursuing BTech from Lovely Professional University in Punjab

India

Summary

I am a final-year BTech Computer Science student passionate about building efficient and scalable software solutions. With a strong foundation in Data Structures & Algorithms and hands-on experience in the MERN stack, I enjoy solving complex problems and turning ideas into real-world applications. I have solved 250+ problems on coding platforms, which has helped me develop strong problem-solving skills and coding discipline. I have worked on projects involving: • Full-stack web development (MERN) • REST API design and backend systems • Database management and optimization I have also participated in hackathons and completed industry-level training in Java and DSA, gaining practical exposure to real-world problem solving. I am currently seeking entry-level roles or internships in Software Development where I can apply my skills, learn from experienced developers, and contribute to impactful projects.

Experience

Lovely Professional University

Student

July 2022 - July 2024 (2 years 1 month)

India

Education

Kendriya vidyalaya

Bachelor of Technology - BTech, Computer science and engineering
